

Solar power in Wisconsin? But it's snowing half the year! Did you know Wisconsin has four times the solar energy potential as Germany, the world leader in solar production? Across the state, individuals, businesses, farms and organizations are taking advantage of the solar revolution to install their own clean, affordable energy systems. Unsure where to start? Join us and learn from the experts!

**2015 Solar Power Wisconsin
2nd Annual Affordable Energy Conference
Presented by Affordable Solar of Transition Chippewa Valley
and Chippewa Valley Technical College**

What is New This Year?

- Free solar installation consultation for your home, business or organization (Bring a year's worth of electric bills with you)
- Tours of the new CVTC Energy Education Center
- Session on renewable energy careers
- Discussions with solar installers and their customers on the process for their solar project

Join Us!

Saturday, October 24, 2015, 11 a.m.-5 p.m.

Chippewa Valley Technical College NEW Energy Education Center

4000 Campus Road, Eau Claire

FREE and open to the public

**Pre-registration is strongly encouraged! Register online
at www.solarpowerwisconsin.com.**

Featured Speakers: Tyler Huebner of Renew Wisconsin and Doug Stingle of Midwest Renewable Energy Association for an overview of solar energy in Wisconsin

Sessions:

- Solar in Wisconsin Overview
- Utility Panel Discussion with Local Utility Leadership
- Installer and Owner Discussion Panels with Homeowners, businesses and farms and organizations
- Careers in Renewable Energy
- Tours of the Energy Education Center
